PROFILE

- A highly motivated and proactive individual with strong communication and interpersonal skills.
- Demonstrates a task-oriented mindset with a consistent focus on achieving goals efficiently and effectively. Known for being a dependable team player who collaborates well in diverse environments while also taking initiative when working independently.

TECHNICAL SKILLS

- Python
- FastAPI
- C++
- C
- SQL

SOFT SKILLS

- Leadership
- Problem-Solving
- Creativity
- Communication
- Adaptability

ACADEMIC HISTORY

🏆 – J.B.Dimond & KARP Impex vidya sankul. |

2022-2023 High School Graduate

🎓 – ATMANAND SARASWATI SCIENCE COLLEGE. |

2023-2026 (B.C.A)

📖 – Rejoice Talent Academy. | 2025-2026 Backend Developer(Python)

LANGUAGE KNOWN

- Gujarati >>>>> - Hindi >>>>> - English >>>>>

ACHIEVEMENTS SECTION

- Secured 94.62% in Higher Secondary Education, demonstrating strong academic excellence
- Achieved 73.30% in Bachelor of Computer Applications (BCA), reflecting solid understanding of core computer science concepts
- Continuously enhancing technical expertise in backend development and modern web technologies
- Successfully designed, developed, and deployed multiple academic and personal projects, showcasing practical skills

WORK EXPERIENCE

Rejoice LLP | Duration: 3 Months

- Worked on two Python-based projects, contributing to development, debugging, and optimization of code.
- Developed and maintained backend logic using Python.
- Collaborated with team members to design and implement project features.
- Wrote clean, efficient, and reusable code following best practices.
- Assisted in API integration and data handling.
- Performed testing and debugging to ensure smooth functionality.
- Gained hands-on experience with libraries/frameworks (FastAPI).

PROJECT

LuxWheel – Car Selling Backend System

Technologies: FastAPI, Python, SQLAlchemy, SQLite, Alembic

- Developed a RESTful backend API for a car-selling platform using FastAPI.
- Implemented user authentication system with secure password hashing and JWT-based login.
- Designed OTP-based email verification workflow for user account validation.
- Built modular API routes for user management, car listings, and cart functionality.
- Integrated SQLAlchemy ORM for database operations and schema management.

SeeBlank – Full Stack Web Application

Technologies: Python, FastAPI, SQLAlchemy, SQLite, HTML, CSS, JavaScript

- Developed a full-stack web application with a structured backend using FastAPI.
- Designed and implemented RESTful APIs to handle core application logic and data flow.
- Built interactive frontend interface using HTML, CSS, and JavaScript for seamless user experience.
- Implemented user authentication and data management features.
- Integrated SQLAlchemy ORM with SQLite for efficient database operations.
